This file combines parts of RICs BK and BN that were released in 1998 through 2000. These data provide the opportunity to quantify many of CMS's Strategic Plan objectives and to measure beneficiary information needs. Specifically, to involve the beneficiaries in defining their health care information needs by aggregating and using data for continuous policy and process improvement, to assess outreach by the Medicare program and general knowledge of the Medicare program (services and health care choices) by the beneficiaries. There is one record for each sample person who completes a community interview.
